Warwick Legal Network is an international association of independent law firms that provides a high-quality legal service to clients on an international scale.

---

## WHAT WE DO

---

WLN member firms specialise in a wide variety of inward and outward investments, dealing with:

- Commercial Agreements
- Mergers and Acquisitions
- Corporate and Ownership Structures
- Corporate Governance and Compliance
- Company Start-ups
- Dispute Resolution
- Intellectual Property
- Employment Law
- Tax Law
- Real Estate Transactions
- Cross Border Debt Collection.

WLN has member firms in 29 countries, across 55 cities in Europe, the US and India. Currently our membership stands at over 500 lawyers with huge experience in many sectors of industry, finance, technology & commerce, supported by capable teams of other professional staff.

---

## WLN'S VALUES

---

### INDEPENDENCE

WLN member firms work closely together, but firms are entirely independent. Clients can be confident that your WLN partner will always seek to give or bring in the best local legal and commercial advice, with an experienced eye to the international angle.

### INVESTMENT IN RELATIONSHIPS

The human touch is indispensable in all that we do for our clients – and experience tells us to continuously invest in this area. The relationship between WLN member firms is strong, developed variously at regular conferences, online, by shared training and through other collaborative business initiatives. This helps our members to form far more effective partnerships with our clients.

### INTEGRITY

Whenever we work together in WLN, we always seek to identify, uphold and fulfil our clients' interests with the utmost integrity. We know that your good commercial reputation is invaluable to you, just as ours is to us.

---

## HOW DOES THIS HELP YOU?

---

With these three values in mind, WLN has developed strict membership criteria and a specific focus on how our members deliver benefits to our clients through quality assurance, good governance and corporate social responsibility.

WLN's membership is growing healthily - we believe that this flows from prioritising clients' requirements for service quality and excellent relations.

WLN operates without referral fees. Our network relies on independent, yet closely integrated and long-term working relationships between our member firms.

Our vision is to grow continuously in quality and expand our geographical coverage, wherever our clients lead us. International business transactions are most successful when supported by the right mix of international experience and local know-how. WLN's member firms know that our clients rely on us to get that mix right, delivering every time you need us and entrust us with your goals.
